STRENGTHEN. SAFEGUARD. RESPOND.

May 2019

National Preparedness Poll

Survey Background and Methodology

Background

Each year since 2016, Healthcare Ready conducts a national preparedness poll, gauging the perspectives of US residents on disaster preparedness.

Methodology

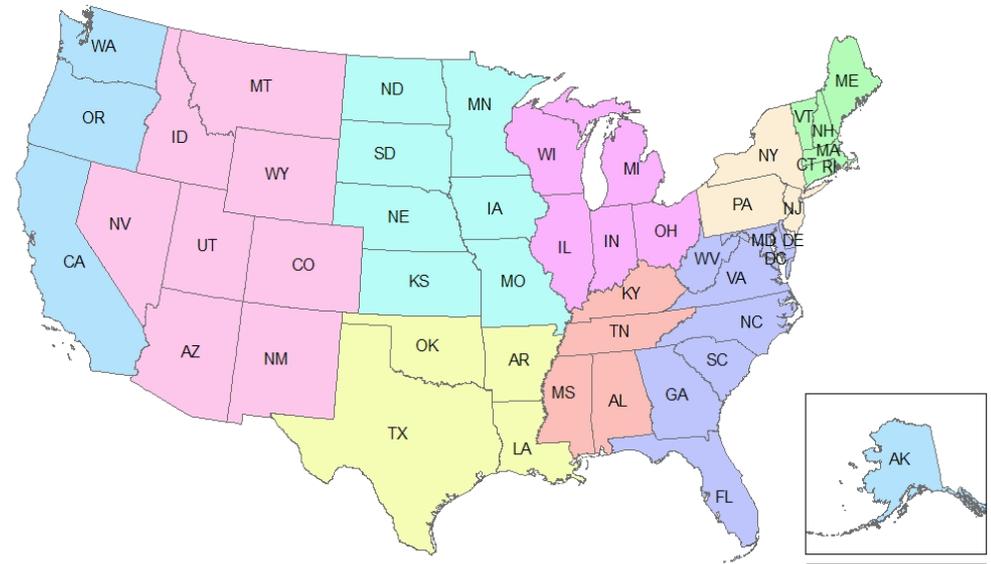

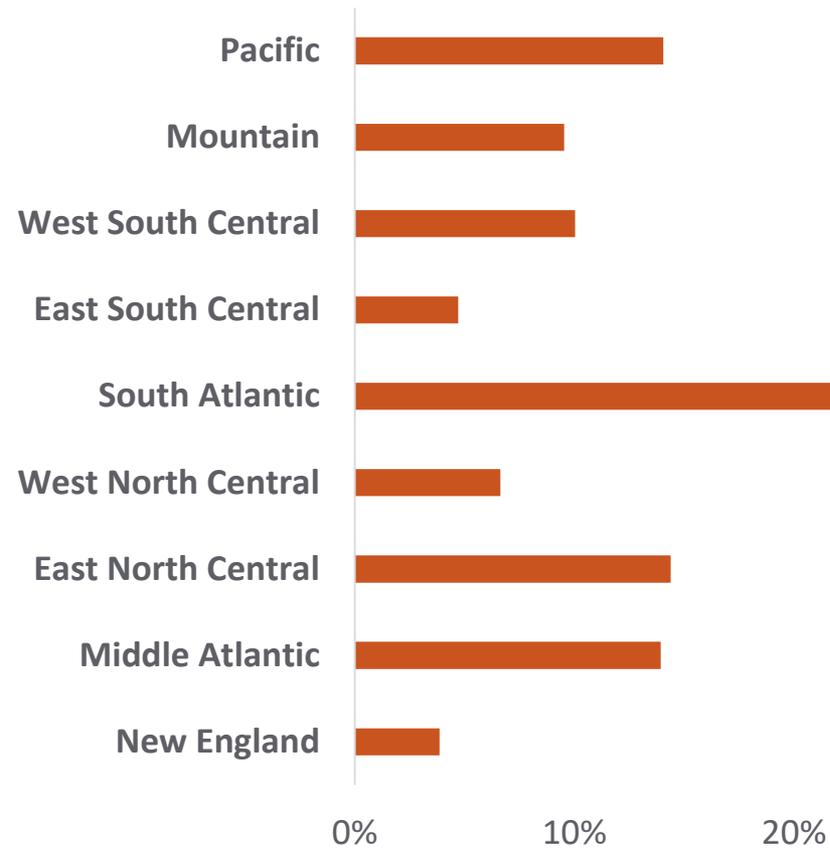

- The survey was carried out online between May 10-13, 2019 by YouGov, an international polling service, on behalf of Healthcare Ready.
- The figures have been weighted and are representative of all US adults (aged 18+).
- Total sample size was 1,245 adults.
