

ABOUT HEALTHCARE READY

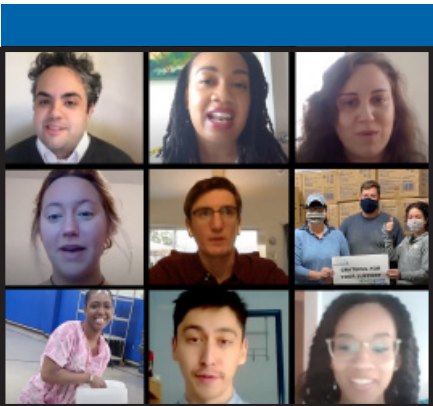

[Healthcare Ready](#) is a 501(c)(3) organization that focuses on strengthening the United States' healthcare supply chain preparedness and response before, during and after natural disasters and disease pandemics. Led by [Nicolette Louissaint, PhD](#), Healthcare Ready establishes strategic public/private partnerships and serves as a critical link between the end-to-end supply chain and government partners at the federal, state, and local government level. Today, Healthcare Ready is uniquely positioned to help improve our nation's ability to plan for and respond to threats that disrupt patient access to healthcare during crises. The health of all, especially those most impacted by these events, depends on seamless emergency response and supply chain coordination to ensure continuity of care.

Today, Healthcare Ready is uniquely positioned to help improve our nation's ability to plan for and respond to threats that disrupt patient access to healthcare during crises. The health of all, especially those most impacted by these events, depends on seamless emergency response and supply chain coordination to ensure continuity of care.

Year-round, the organization conducts research, executes programs and creates resources that are dedicated to building community health resilience across the nation. Most recently, Healthcare Ready has garnered recognition for:

- Creating and sharing [COVID-19 resources](#) to help inform and strengthen communities and assist with the nation's pandemic response.
- Conducting a [national poll](#) for six consecutive years on the US's readiness capacity.
- Providing pharmacy information to the public through its [Rx Open map](#) so that patients can access their medications during a crisis.
- [Advancing equity](#) in communities disproportionately impacted by disasters and emergencies, which often disrupt access to healthcare.
- Hosting and participating in [interviews and convenings](#) to educate the public and combat misinformation
- Building [cross-sector community partnerships and launching projects](#) that bring together key elements of emergency management and public health in communities across the nation.

SNAPSHOT OF HOW IT BEGAN

Healthcare Ready (formerly Rx Response) was launched in 2006 following Hurricane Katrina, a catastrophic event which highlighted the preparedness gaps in protecting patient access to healthcare and life-saving medicines during a crisis. It was created by the trade associations comprising the bio-pharmaceutical supply chain and the American Red Cross to support supply chain coordination during crises like what we continue to face today.

Over its 15-year history, the organization has responded to events including, but not limited to, the COVID-19 pandemic; the largest and deadliest wildfires to ever occur in California; dozens of Atlantic and Gulf of Mexico hurricanes affecting the US and Puerto Rico; along with some of the strongest storms on record to affect Hawaii and the Commonwealth of the Northern Mariana Islands in the Pacific.
