

FOR IMMEDIATE RELEASE

## Healthcare Ready Announces Organizational Wind-Down by February 27, 2026

Washington, D.C. – January 12, 2026 – Healthcare Ready is announcing that it has made the difficult decision to dissolve the organization by February 27, 2026. This decision follows extensive evaluation of the evolving landscape of disaster preparedness, response, and healthcare supply chain resilience, and reflects the Board’s commitment to ensuring that the mission of strengthening community readiness and resiliency continues in the most effective and sustainable way.

For nearly twenty years, Healthcare Ready has served as a trusted connector across the public and private sectors, supporting communities through hurricanes, pandemics, critical medical shortages, and global supply chain disruptions. The organization’s work has centered on ensuring that patients, providers, and response partners remain linked to essential information, resources, and life-sustaining medical supplies during times of crisis.

“After thoughtful assessment and with deep respect for the communities we serve, it has been determined that winding down operations is the most responsible step forward,” said Julie Abrams, Acting Executive Director. “Healthcare Ready has made a distinctive impact on preparedness, response, and resilience in this country. We are profoundly grateful to every partner who has worked with us, trusted us, and advanced this mission alongside us.”

As Healthcare Ready begins its transition, partners and organizations who rely on its programs or hosted materials are encouraged to contact the team or visit the Healthcare Ready website for guidance on accessing or transferring documents and resources. The organization will coordinate directly with partners to ensure a clear and seamless migration of any assets that need to be moved to external websites or platforms. Please reach out to [alerts@healthcareready.org](mailto:alerts@healthcareready.org).

While the organization will conclude formal operations, the collaborative spirit and commitment to protecting patient access during emergencies will continue through the many agencies, companies, and community organizations that shared in this mission. Healthcare Ready extends its deepest appreciation to its partners, stakeholders, and supporters for their enduring dedication and service.

### About Healthcare Ready

Healthcare Ready is a trusted nonprofit organization that serves as a public-private nexus to prevent patient care disruptions amid crises. We do this by forging partnerships and serving as the linkage point between the healthcare supply chain and government. By working with supply chain stakeholders, emergency management, patient advocacy groups, and community-based organizations, we help safeguard patients before, during, and after crises by leveraging our core capabilities.
